

Revenue Boost

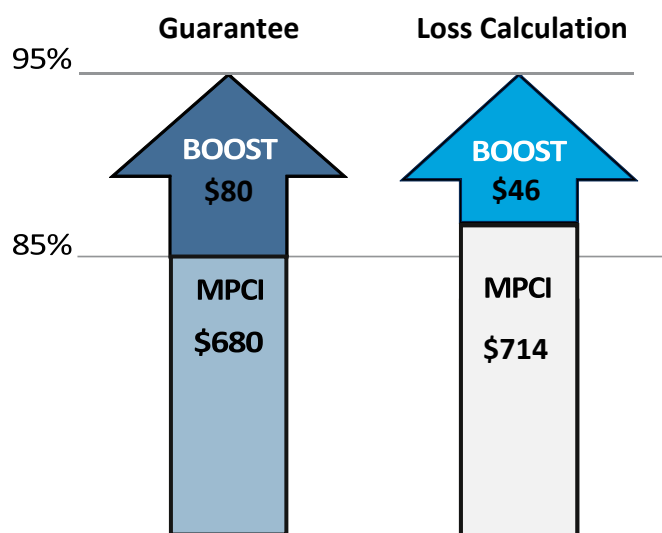

Revenue Boost

Revenue Boost is a supplemental policy that pairs with most MPCl plans to provide higher coverage and protection to insureds. Want to protect more margin and build a stronger risk management plan? Ask your agent today about Revenue Boost.

What is Revenue Boost?

Revenue Boost can be paired with MPCl Yield Protection (YP), Revenue Protection (RP) or to Revenue Protection with the Harvest Price Exclusion (RP-HPE) policies. Adding RevBoost creates the opportunity to increase coverage over your MPCl Guarantee, up to 95% of APH.

Boost Revenue to 95% with a Harvest Loss

*Figured using RP MPCl Policy

APH: 200 bu./acre	MPCl Coverage: 85%
Spring Price: \$4.00/bu	BOOST Coverage: 85%-95%
Fall Price: \$4.20/bu	BOOST Coverage per acre: \$80

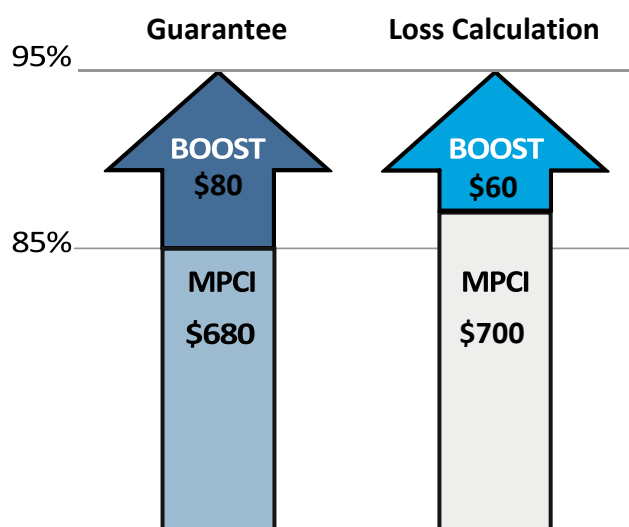

BOOST GUARANTEE: \$760 (200 bu. x 95% x \$4.00)

HARVEST REVENUE: \$672 (160 bu. x \$4.20)

BOOST PAYMENT: \$46 (\$760 BOOST Guarantee - \$714 MPCl Guarantee)

Partial payment: harvest revenue fell below the BOOST and MPCl Guarantee

Boost Revenue to 95% with a Price Decline

*Figured using RP MPCl Policy

APH: 200 bu./acre	MPCl Coverage: 85%
Spring Price: \$4.00/bu	BOOST Coverage: 85%-95%
Fall Price: \$3.50/bu	BOOST Coverage per acre: \$80

BOOST GUARANTEE: \$760 (200 bu. x 95% x \$4.00)

HARVEST REVENUE: \$700 (200 bu. x \$3.50)

BOOST PAYMENT: \$60 (\$760 BOOST Guarantee - \$700 Harvest Revenue)

Partial payment: harvest revenue fell below the BOOST Guarantee

Revenue Boost Benefits

- Priced with farmers in mind. RevBoost is built to be cost effective in your risk management plan.
- Guarantee is known when the MPCI Spring Price is established.
- Known guarantee gives you marketing and lending power before your crop goes in the ground.
- Applying for and adding RevBoost is a simple process.

Available Coverage Options

70% - 80%	80% - 90%	85% - 95%
75% - 85%	85% - 90%	Choose Your Own

Policy Coverage Details

- Available crops: corn (insured as grain) and soybeans.
- Must purchase an underlying YP, RP or RP-HPE Multi Peril Crop Insurance policy.
- Any Unit Structure is eligible on the underlying MPCl policy.
- Losses worked on Enterprise Unit structure (each line separately; summed at end)
- Your APH is determined using Trend Adjustment (TA) and Yield Adjustment (YA) if applicable.
- Organic, written agreements, & high risk land designations are excluded.
- Sales Closing matches the underlying MPCl policy application deadline.

Revenue Max Endorsement

- Gives insureds four additional pricing periods in peak grain marketing months to add increased coverage to their Revenue Boost policy
 - Liability will be added to the Boost coverage band based on amount of price increase above the Projected Spring Price
 - Follows Revenue Boost policy guidelines
- 

Pricing Periods:

June 1st-15th	June 16th-30th
July 1st-15th	July 16th-31st

Policy Availability

Revenue Boost and Revenue Max are both available in all blue shaded states on the map to the right.

Revenue Boost only is available in the states shaded in red.
